The Emerging Markets Hard Currency Debt Fund aims to outperform the JP Morgan Hard Currency (EMBI GD) Index by at least 1.00% p.a. (gross). It is managed by a highly experienced team led by Jean-Charles (JC) Sambor. Targeting under-researched, mispriced markets where they have an edge, the team employs a high-conviction, non-regional, active approach that separates alpha from beta. With a value-based contrarian DNA, they focus on market 'blind spots' and overlooked scenarios that are prevalent across EM Debt markets.

Why TT?

TT International is an alpha-driven specialist investment manager with over 35 years of experience serving a globally diverse institutional client base. Our performance-driven, collaborative culture attracts world-class professionals, with portfolio managers and analysts investing their own assets in our products, ensuring strong alignment with clients.

TT aims to generate strong risk-adjusted returns by focusing on areas where we have genuine competitive advantages and where market inefficiencies favour active management. We offer complementary long-only and alternative strategies across multiple asset classes, which are unified by a high-conviction, agile and opportunistic approach.

Such opportunism extends to our approach to responsible investment; rather than automatically excluding companies or industries on ESG grounds, we analyse the ESG risks and indeed opportunities associated with potential investments. Finally, TT's capacity-disciplined process ensures our strategies remain nimble, enabling us to access opportunities that are often inaccessible to larger peers.
