Investment Strategy

The UK Equity strategy targets strong excess returns by primarily focussing on bottom-up stock selection, but with an awareness of the prevailing macroeconomic conditions.

We believe that long-term outperformance comes from investing in companies with sustainably high returns that can compound growth over time, subject to valuation. We therefore seek to identify well-managed companies with sustainably high returns, good growth potential, and attractive valuations. Such companies make up the core of the portfolio. This core is augmented by other market mispricing opportunities, including balance sheet optionality, restructuring, corporate change, asset value, and special situations.

Portfolio construction is the synthesis of idea generation, conviction and risk management. The strategy will typically hold between 30 and 55 stocks. We have a disciplined approach to risk management that aims to preserve capital and control downside risk. This is reinforced by TT's independent risk management team.

We believe the following aspects of our investment process set TT apart from the competition:

Strong, repeatable and differentiated process. Our VVC-ESG process takes a pragmatic and flexible approach to Valuation, incorporates a wide range of inputs (both conventional and unconventional) when Verifying each investment case, identifies clear Catalysts that should crystallise value within an investable timeframe, and integrates ESG analysis throughout.

Unconstrained. We are focused on deploying capital where we have the highest conviction and where we see the best returns. Consequently, we are comfortable with deviating substantially from index weightings.

Strong sell discipline. We believe the process of selling investments is just as important as the process of buying them.

Flexibility. Whilst our research process is extremely thorough, our structure, focus, and size affords us the ability to make timely investment decisions when market conditions require it. This gives us a significant edge over the competition.

Why TT?

Founded in 1988, TT International is an alpha-driven specialist investment manager with a significant focus on Emerging Markets. We have a long and successful history of investing for sophisticated institutional clients around the world, including leading sovereign wealth funds, public pension funds and family offices. Our performance-driven, collaborative culture attracts world-class professionals, with portfolio managers and analysts investing their own assets in our products, ensuring strong alignment with clients.

We are dedicated to generating strong risk-adjusted returns. To this end, our investment strategies focus only on areas where we possess genuine competitive advantages, and where persistent market inefficiencies enable active managers to succeed. Whilst we offer a range of complementary strategies across multiple asset classes, they are unified by a common active, agile and high-conviction approach. To maximise our ability to deliver strong performance, all our strategies maintain a capacity disciplined process that allows our portfolio managers to remain nimble and access opportunities that larger peers often cannot.

TT has a well-defined DNA in EM and macro investing, with a long history of managing significant assets within EM equities across a range of strategies boasting strong track records. We have been successfully integrating top-down and bottom-up research for well over 30 years, resulting in long-term alpha generation from both top-down portfolio construction and individual security selection.

Important Information:

This is a marketing communication. This document is issued by TT International Asset Management Ltd ("TT"), authorised by and regulated in the United Kingdom by the Financial Conduct Authority. This information is only directed at persons residing in jurisdictions where the Fund and its shares are authorised for distribution or where no such authorisation is required. The information herein does not constitute an offer of shares in the Fund, and it is not an offer or solicitation to any potential clients or investors, for the provision by TT of investment management, advisory or any other comparable services.

TT International Funds plc (the "Company") is established and authorised in Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended or supplemented from time to time). The fund is a sub-fund of the Company (the "Fund") and has been approved by the Financial Conduct Authority of the UK as an Overseas Funds Regime Recognised Scheme ("OFR") under section 271A (Schemes authorised in approved countries) of the Financial Services and Markets Act 2000, as amended ("FSMA") and is therefore considered to be a recognised collective investment scheme for the purpose of FSMA. The distribution of this document is restricted to sophisticated, accredited and/or professional investors as defined in the legislation of the relevant countries. In the UK, the restriction is to "professional investors" in accordance with FSMA. No shares in the Fund may be offered or sold in the United States, or to or for the benefit of U.S. Persons save for residents of the United States who are both "accredited investors" as defined in Regulation D under the US Securities Act of 1933, as amended, and "qualified purchasers" as defined in Section 2(a) (51) of the US Investment Company Act of 1940, as amended.

A prospectus and supplement for the Fund ("Prospectus"), and Key Information Documents ("KIDs") for each share class of the Fund can be obtained from www.ttint.com and is available in other languages. The KIDs can be obtained from www.ttint.com and are available in one of the official languages of each of the EU Member States into which each sub-fund has been notified for marketing under the Directive 2009/65/EC. In addition, a summary of Fund investor rights is available from www.ttint.com.

Any person considering an investment in the Fund should consult the Fund's Prospectus. Investment in the Fund carries with it a high degree of risk. Past performance is not necessarily indicative of future results and investors may not retrieve their original investment. Nothing in this document constitutes or should be treated as investment advice nor is it a recommendation to buy, hold or sell any investment. Performance statistics are not necessarily based on audited financial statements and assume reinvestment of portfolio distributions. Net asset value of the portfolio will fluctuate with market conditions which includes fluctuations in currency markets.

Additional Risks

FDI Risk: FDI may fluctuate in value rapidly and leverage through FDI may cause losses that are greater than the original amount paid for the relevant FDI.

Operational Risk: human error, system and/process failures, inadequate procedures or control may cause losses to the Fund.

Liquidity Risk: the Fund may have difficulty buying or selling certain securities readily which may have a financial impact on the Fund.

Credit/Counterparty Risk: a party with whom the Fund contracts for securities may fail to meet its obligations (e.g. fail to pay principal or interest or to settle an FDI) or become bankrupt, which may expose the Fund to a financial loss.

For more information on these and other risk factors that apply to the Fund, see the section entitled "Risk Factors" in the Prospectus.
